## Spain / Portugal

### Headquarters

Pick to light systems, S.L. B° Garagaltza 50, PO Box 67 20560 Oñati (Gipuzkoa). Spain Tel: +34 943 71 88 20 Fax: +34 943 7188 28 infoweb@ptlsystems.com

### France

Pick to light, France 2 Avenue Bordaberry 64500 Saint Jean de Luz. France Tel: +33 0 78 88 12 526 infoweb@ptlsystems.com

Italy Pick To Light, Italy Via F. Coghetti 5 24128 Bergamo (BG). Italy infoweb@ptlsystems.com

## Germany

Pick to light, Germany Am Eichholz 4 D-75015 Bretten Germany infoweb@ptlsystems.com

### Brazil

Pick to light, Brazil 579 Rua Jose Getulio cj32 Aclimação São Paulo - SP Cep 01509-001. Brazil Tel: +55 11 4040-4501 infoweb@ptlsystems.com

### Japan

Aioi Systems CO. LTD WiRA Omori Bldg.8F, 1-6-8 Omori Kita, Ota-ku Tokyo 143-0016. Japan Tel: 03 (3764) 02a28 www.hello-aioi.com

# From zero to one hundred in a flash.

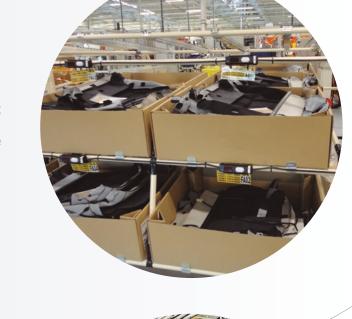

# Automotive OEM

Pick to light, as a Lean Manufacturing tool, transforms assembly and manufacturing processes, eliminating "waste" and "defects", improving the speed and quality in the selection and supply of components.

# Kitting with PTL

### **Accuracy and tight deadlines.**

The increasing number of components and variants in vehicles make Kitting with pick-tolight an essential solution to ensure the logistics flow, greatly simplifying plant material handling. In the component "supermarkets", operators choose parts on carts which then make their way to the assembly line. The PTL system helps to get the right components in the right place at the right time and at the right amount, minimizing waste, while being flexible and open to change.

## Assembling

### Maximum flexibility and efficiency.

The PTL technology integrated in the assembly line itself, improves production efficiency through a system of visual and intuitive work, ensuring the quality and accuracy of assembly operations. It reduces costs and provides full flexibility to adapt to constant changes in production systems.

# F-Kanban

E-Kanban is part of the JIT production process and is an information system to identify needs for material on the assembly line.

# Choose your way.

# Automotive TIER

Production flexibilisation involves replacing traditional assembly lines with the assembly of sub-assemblies from external suppliers near the plant. Adopting flexible technological solutions, such as PTL, is crucial to ensuring the success of a Tier.

## Cell production

Increased productivity, error elimination, learning speed.

Cell production with pick-to-light optimizes the assembly of subassemblies to supply the OEM. In "Cell Production" each operator works in a workstation. The Pick to Light devices linked to each component indicate to the operator the exact parts to pick up and assemble at every every step. Side-by-side a screen can show the operator the assembly tasks. As it is a guided work system, it enables assembly process errors to be eliminated, increased productivity and the operator's learning curve to be significantly reduced. "Cell Production" contributes to improving assembly quality, reducing costs and flexibility in the process.

# Just in Time (JIT) & Just in Sequence (JIS)

**Deliveries sequenced to the production lines.** Flexibility and speed.

Having pick-to-light technology optimizes and speeds up "inbound" deliveries to the automotive industry. The goal is "just-in-time", or to have the materials or subassemblies reach the line at the precise moment of use, eliminating stocks and their associated costs. Pick-to-light ensures the flexibility, speed and quality required in line side locations or any other area where space is minimal.

# Inspired by the automotive sector.

# Standard equipment

Resistant system suitable for all types of industrial environments.

### **Easy integration**

Suitable for integration with existing IT systems. No need for a software licence.

Its high quality features allow us to offer a 5-year warranty for manufacturing defects.

### Technical support

We offer free technical support throughout the entire project and after-sales period.

### **Quick installation**

Its modular design speeds up and facilitates its installation in all types of environments.

# Helping the best.

Customers who rely on us:
